Saudi Arabia: heritage-trip checklist

Plan the permissions, route and details before the photographs

29 OCTOBER 2026 | ENGLISH EDITION

01 Entry and purpose

- ☐ Verify tourist-entry eligibility for your nationality through the official visa service; an invitation or flight ticket is not final admission.
- ☐ Keep tourism and pilgrimage permissions separate. Do not assume a tourist visa authorises Hajj.
- ☐ Check current regional travel advice, insurance cover and your route before any non-refundable booking.

02 Tickets and heritage access

- ☐ For AlUla experiences, use the official Experience AlUla booking channel and check the exact product, slot and meeting point.
- ☐ Ask what admission, guiding and transport are included; a headline ticket price may not cover the complete day.
- ☐ Check current site closures and whether an event changes normal access. A UNESCO listing is not an opening-hours guarantee.

03 Transport and comfort

- ☐ Choose fewer bases and allow for long intercity distances. Confirm transfers before selecting remote stops.
- ☐ For a desert or mountain outing, use a suitable qualified operator and check weather, communications and return arrangements.
- ☐ Carry water and appropriate footwear; confirm steps, shade, toilets and accessibility for the actual site.

04 Respectful visiting

- ☐ Follow current public-decency and site-specific dress requirements.
- ☐ Ask before photographing people or religious activity. Observe signs and staff instructions around cameras and restricted areas.
- ☐ Keep official booking links and emergency contacts offline, and retain flexible time for changed conditions.
